

December, 2024

Dear Colleagues,

INVITATION TO
Shizuoka Kita Youth Science Engineering Forum 2025
July 30th-August 2nd 2025, Shizuoka Kita High School, Shizuoka, Japan

It is an honor to send this letter to invite your students and teacher(s) to Shizuoka Kita Youth Science Engineering Forum (SKYSEF). SKYSEF is an international forum open to the students who are in 7-12 grades with an aim to discuss a sustainable relationship in the 21st century by the means of science research conducted by them.

Students from many countries communicate the issues on energy, environment, and biodiversity based on their own research and engage in an on-site science and technology project by forming international working groups. We wish that SKYSEF 2025 lets the students acquire the skills to make their life more meaningful in the current society using existing knowledge.

SKYSEF 2025 will be held from July 30th to August 2nd, 2025. We would be grateful for your positive consideration to participate in SKYSEF 2025 from your school. Let us work together to raise the future scientists who can take an active role in the international stages.

If you wish to participate in SKYSEF 2025, please carefully read “THE OUTLINES OF SKYSEF 2025” and submit the Form 1 on the Email.

We look forward to seeing you.

Yours sincerely,

Masaharu Yamamoto
Principal, Shizuoka Kita High School
